

Software Gateway to use Legacy DOS software to program Lego Interface A (9750) using a cheap FT232RL module

Notes:

1. You may need to install pyusb and / or pyserial in your python.
If you use Thonny, go in Tools -> Manage Plug-ins...
2. LegoGwy_FT232.py: https://github.com/BlissCA/lego-blockly/blob/main/Misc/LegoGwy_FT232.py
